

Harmony Healthcare IT

We make your legacy patient, employee and business records accessible, interoperable, secure and compliant.

Harmony Healthcare IT is a data management firm that migrates and archives patient, employee and business records for healthcare organizations. To strengthen care delivery and improve lives, we move and preserve vital information in a way that keeps it accessible, releaseable, usable, interoperable, secure and compliant.

Since 2006, our team of experts has extracted, converted, migrated and retained records from over 550 different clinical, financial and administrative software brands.

Whatever your legacy data needs — we get it done.

Rationalization

Guidance on legacy system decommissioning prioritization

Extraction

The critical first-step for data movement or storage

Migration

The movement of information from one system to another

Retention

Secure, compliant, searchable, actionable data storage

Integration

Data activation for interoperability with other systems

Destruction

Policy and rules-based record disposal with proof of purge

When healthcare delivery organizations migrate, consolidate, and store data, it must be 100% accurate. No exceptions. No excuses. That means you need an experienced partner you can count on.

Who We Serve

Whether it is a clinical, financial, administrative, or business software application at your healthcare facility, we've got you covered. No matter the source system, it's likely we've already worked with it. Here are just a few we work with frequently:

McKesson

eClinicalWorks

MEDITECH

Harmony Healthcare IT's trusted data management solutions serve individual practices to large health systems. Beyond acute and ambulatory, we work with speciality organizations like blood banks, perinatal units, community health centers, long-term care centers, retail health clinics, pharmacies, correctional facilities, student health centers, and more.

Within a healthcare organization, our products and services support those working in:

- IT
- Compliance & Legal
- Clinical
- Accounts Receivable
- Finance
- Mergers & Acquisitions
- HIM
- Research
- Human Resources
