ERA Auto Poster for The Medical Manager®

No more manual payments

Accelerate Insurance Payment Posting

Want your billers to spend less time posting payments and more time collecting balances due? They can. In a fraction of the time it would take to manually download and post checks, the ERA Auto Poster applies a batch of government and commercial payments into The Medical Manager® software.

Expedite the Patient Billing Process

Moments after a new ERA is analyzed by the system, patient accounts reflect approved amounts, deductibles, coinsurance portions, payments, rejections, and contractual allowances. Exceptions are presented to the medical biller for handling. This expedites the patient billing process and ultimately reduces accounts receivables aging.

Streamline Revenue Cycle Management (RCM)

Make RCM more efficient by reducing paperwork and manual payment processing in your practice. Speed up secondary billing and allow billers to work smarter.

Getting Started

Call us at 800.781.1044 or email Sales@HarmonyHIT.com.

What is ERA?

An Electronic Remittance Advice contains information your practice would typically receive on a paper explanation of benefits (EOB). It is an industry-standard file and often referred to as an 'ANSI 835.' You can enroll to receive ERA from government and commercial insurance companies. This includes Medicare, Medicaid, Blue Cross and Blue Shield in nearly every state and every major commercial insurance company.

Learn more about The Medical Manager® at MedicalManagerUsers.com.

In-tune with the technology needs of healthcare, we partner with providers to safeguard patient data, ensure cash flow and increase productivity.
